PROFILE

Dedicated Information and Communication Technology (ICT) student at Cape Peninsula University of Technology (CPUT) with a strong background in full-stack development and digital design**.** I am excited to build innovative solutions, gain practical experience, and leverage technology to deliver meaningful impact.

EDUCATION

Cape Peninsula University of Technology **2024 – Present**
Diploma in Information and Communication Technology (Multimedia)

Ekangala Comprehensive High School **2022**
National Senior Certificate

PROJECTS

Volunteering **2025**

- Created a TikTok account showcasing the CPUT D6 Campus and highlighting various student events, both past and upcoming.
- Represented the university at the AfriHack Connect hackathon, where I contributed to development of an online academic platform for high school learners, parents, and teachers to monitor academic progress and set yearly goals, similar to Blackboard.

School **2026**

- Developed a web-based event management platform using Laravel, PHP, MySQL, Blade, Tailwind CSS, and JavaScript, to help students discover and register for campus events.
- Collaborated on a community safety platform called Pulse Guard that enables users to report incidents through video, track reports in real time, and view localized crime-risk analytics.

Hackathon **2026**

- Collaborated in a team to develop Wombs of Wisdom, an AI-powered platform that preserves and shares African women's intergenerational knowledge, the application features a structured knowledge database covering motherhood, health & awareness, hygiene & personal care, and food & nutrition.
- Worked collaboratively in a team during a hackathon hosted by the MICT SETA to develop SmartGov, a digital solution designed to reduce long queues and improve public service delivery at Home Affairs.

TECHNICAL SKILLS

Programming languages: JavaScript, Python, HTML, CSS, MySQL, PHP
Frameworks & Software: Node.js, React.js, Figma, Adobe Illustrator, Adobe InDesign
